Pearson Edexcel International GCSE (9–1)

Thursday 9 May 2024

Afternoon (Time: 1 hour 30 minutes)

Paper reference **4IT1/01**

Information and Communication Technology (ICT)

PAPER 1: Written Paper

You do not need any other materials.

Total Marks

Instructions

- Use **black** ink or ball-point pen.
- **Fill in the boxes** at the top of this page with your name, centre number and candidate number.
- Answer **all** questions.
- Answer the questions in the spaces provided
– *there may be more space than you need.*

Information

- The total mark for this paper is 100.
- The marks for **each** question are shown in brackets
– *use this as a guide as to how much time to spend on each question.*

Advice

- Read each question carefully before you start to answer it.
- Try to answer every question.
- Check your answers if you have time at the end.

1 Joe streams a radio show online.

(a) State **one** type of input device that would be used to capture Joe's voice.

(1)

(b) Joe must reduce latency when connecting an input device to a computer.

(i) Which **one** of these is the best choice of connectivity for this?

(1)

☐ **A** Bluetooth

☐ **B** NFC

☐ **C** USB

☐ **D** Wi-Fi

(ii) Which **one** of these is the effect of latency?

(1)

☐ **A** Delayed sound

☐ **B** Increased volume

☐ **C** Longer playback

☐ **D** Lower frequency

(c) Describe what is meant by 'streaming'.

(2)

(d) State the type of network required to stream the show to listeners outside of Joe's LAN.

(1)

- (e) Explain **one** way copyright legislation affects how the listener can use a recording of Joe's radio show.

(2)

.....

.....

.....

.....

- (f) Joe's computer has 8 GiB of RAM.
Each recording uses 300 MiB of RAM.

- (i) Construct an expression to show how many recordings can be stored in RAM at once.

(2)

.....

.....

.....

.....

- (ii) Which **one** of these is a benefit to Joe of increasing RAM?

(1)

- ☐ **A** He does not have to save recordings as frequently
- ☐ **B** Increased processor speed
- ☐ **C** Recordings will be higher quality
- ☐ **D** There is less need to back up recordings

- (iii) State **two** benefits of using storage, rather than RAM, to save the radio shows.

(2)

1

.....

2

.....

(iv) Which **one** of these does the 'A' stand for in RAM?

(1)

- ☐ **A** Access
- ☐ **B** All
- ☐ **C** Array
- ☐ **D** Available

(v) State the reason why RAM and ROM are called 'Random'.

(1)

(g) The audio data is processed.

(i) State how the speed of a processor is measured.

(1)

(ii) State **one** feature of a laptop that provides expansion capability for audio processing.

(1)

(h) Listeners can subscribe to get notifications about new shows.

(i) State **one** risk to personal information when subscribing.

(1)

DO NOT WRITE IN THIS AREA

DO NOT WRITE IN THIS AREA

(ii) Describe **one** way a listener can secure their personal information.

(2)

(iii) There are legal requirements for storing personal information.

Explain **two** specific legal requirements Joe must comply with when storing a listener's personal information.

(4)

1

2

(iv) Users who subscribe to Joe's show are shown other content they could subscribe to.

Describe how an online service can offer the **most relevant** content to users.

(2)

(Total for Question 1 = 26 marks)

2 Joe posts a link to the shows on an online community.

- (a) Explain **one** reason Joe does not upload posts that include videos when streaming a show.

(2)

- (b) Which **one** of these is the best choice of online community for Joe to use?

(1)

- ☐ **A** Online gaming
- ☐ **B** Social bookmarking
- ☐ **C** VLE
- ☐ **D** Wiki

- (c) Anonymity is a threat to the safety of members of online communities.

- (i) State **one other** threat to members of online communities.

(1)

- (ii) Describe **one** way that moderators can improve the safety of online communities.

(2)

- (iii) State the purpose of an acceptable use policy.

(1)

(d) Describe how **one** key feature of a social network is used to create communities.

(2)

.....

.....

.....

.....

(e) People find information online.

(i) Which **one** of these would negatively affect the fitness for purpose of information found in online communities?

(1)

- ☐ **A** Bias
- ☐ **B** Collaboration
- ☐ **C** Encryption
- ☐ **D** Plagiarism

(ii) State **two** methods people can use to check the reliability of online information.

(2)

1

.....

2

.....

(iii) Which **one** of these can be used to avoid plagiarism?

(1)

- ☐ **A** Copy and paste
- ☐ **B** Copyrighting
- ☐ **C** Paraphrasing
- ☐ **D** Secondary source

(f) Describe **one** way the features of an online community can improve the reach of Joe's post.

(2)

.....

.....

.....

.....

(g) Which **one** of these should a user do to improve their online safety?

(1)

- ☐ **A** Downvote comments
- ☐ **B** Enable location sharing
- ☐ **C** Share less information
- ☐ **D** Take regular breaks

(Total for Question 2 = 16 marks)

3 Joe connects to different types of networks.

(a) Joe connects to the Internet.

(i) State the purpose of an ISP.

(1)

(ii) Joe connects a laptop to a wireless access point.

State **two** additional components of a network required to connect the laptop to the Internet.

(2)

1

.....

2

.....

(iii) Describe the role of a web browser when connecting to the Internet.

(2)

.....

.....

.....

.....

(iv) State **one** use of an IP address.

(1)

.....

.....

- (v) Explain **one** benefit of using Media Access Control (MAC) rather than an IP address.

(2)

.....

.....

.....

.....

- (b) Joe uses networks to stream his show.

- (i) Give **two** types of wireless connectivity that Joe could use to connect a laptop to a smartphone.

(2)

1

.....

2

.....

- (ii) Explain **one** reason why Joe must use a WAN to stream a show.

(2)

.....

.....

.....

.....

- (c) Joe uses GPS.

- (i) Which **one** of these statements about GPS is **true**?

(1)

- ☐ **A** Data must be sent to multiple satellites for accuracy
- ☐ **B** Devices cannot connect to a network without GPS
- ☐ **C** GPS calculations require data from one GPS satellite
- ☐ **D** The GPS system does not receive data from Joe's devices

(ii) Which **one** of these is a reason why Joe would use GPS?

(1)

- ☐ **A** To connect to a wide area network
- ☐ **B** To include location data in image files
- ☐ **C** To prevent access to files by the general public
- ☐ **D** To provide a connection if a mobile phone network fails

(d) Describe **one** role of a server in a client-server network.

(2)

(e) Explain **one** benefit of using a client-server network rather than a peer-peer network.

(2)

(f) Explain **one** benefit to Joe of using a VPN to connect to the radio station's network.

(2)

- (g) Joe's laptop uses a wired connection to the Internet through broadband.

Joe's smartphone has mobile broadband connectivity.

The laptop loses its connection to the Internet.

Describe **one** method Joe could use to keep the laptop online.

(2)

- (h) Joe checks the new connection and gets these results:

21.65
Mbps download

0.07
Mbps upload

Explain the impact these results have on the experience of Joe's audience.

(2)

(Total for Question 3 = 24 marks)

4 Joe uses a laptop to record audio.

(a) Which **one** of these would represent the minimum amount of data required to store a one-hour, uncompressed audio recording?

(1)

- ☐ **A** Byte
- ☐ **B** Gibibyte
- ☐ **C** Kibibyte
- ☐ **D** Mebibyte

(b) State **one** operating system function used during audio recording.

(1)

(c) Explain **one** benefit to Joe of using open-source audio recording software.
